

Field Stations and Area Offices help us to better operate and manage the vast water management network which includes 1,800 miles of canals and levees, close to 200 large water control structures and over 2,000 smaller structures. The water system we manage spans approximately 18,000 square miles and 16 counties from Lake Kissimmee to the Florida Keys.

The Miami Field Station is responsible for the operations and maintenance of a 930 square mile area of the Central and Southern Florida Flood Control Project covering two-thirds of Miami-Dade County and a small portion of south Broward County. This area includes 230 miles of canals, 115 miles of levees, 274 berm gates, 37 structures, and 15 project culverts. It employs 63 personnel and is responsible for administering the following seven programs: Administration, Structure Maintenance, Facility Maintenance, Vegetation Management, Canal/Levee Maintenance, Right-of-Way, and Equipment Maintenance.

Q: Where are you located and what are your hours of operation?

We are located at 9001 N.W. 58 St, Miami, FL 33178. Our hours of operation are from 7:00A.M. to 3:30 P.M., Monday through Friday. Our local telephone number is (305) 513-3420.

Q: What are the current job opportunities available?

[Click here for current job opportunities](#)

Q: Are the herbicides used to treat the canals and banks harmful to my family?

The herbicides we use are non-toxic to humans and animals.

Q: Where can I get maps of the canals and waterways?

Contact the Miami Field Station during normal business hours and request one. Our phone number is (305) 513-3420.

Q: What do I do if there is an alligator in the canal?

Call the FLorida Fish & Wildlife Conservation Commision at 1-800-432-2046.

Q: What are the current water restrictions?

[Click here for current restrictions](#)

Q: Where do I pay my water bill? How do I get my water turned on? What if my water line is leaking?

Although we are the "water management district office," we are not the local utility provider of your drinking water. Please call your local city offices to find out who your local water utility is. Miami-Dade Water & Sewer Authority is one of the public utilites in the county. Their phone number is (305) 665-7471.

Q: What do I do if I find a dead animal in the canal?

If the canal is part of the primary canal system contact us at (305) 513-3420. If the canal is part of the secondary system contact Miami-Dade County Public Works Department at (305) 592-4108.
